

SATIR PK-160

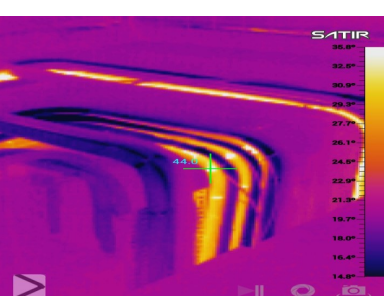

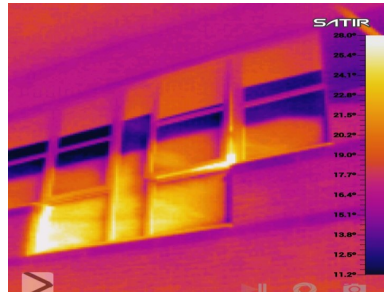

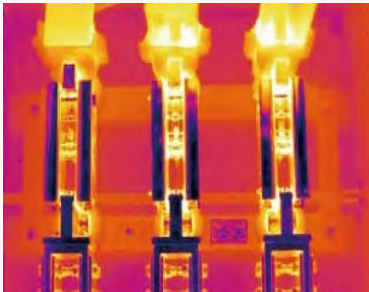

Portable Thermal Tablet

The Pk-160 integrates tablet and thermal camera technologies, which makes the device a multifunctional, multi-application device. The Pk-160 can access the internet via a Wi-Fi connection or a tablet network. Users can share thermal information with other people anytime, anywhere. It is easy to use and has been designed with the user in mind. If your company has their own App it can also be added to the PK-160.
